EXPLANATION OF GROUP SYMBOLS

GROUPS OF TYPES 11, 12, 13, and 14:

A-Wrappers
B-Leaf and smoking leaf
C-Cutters
X-Lugs and primings
S-Scrap
N-Nondescript

GROUPS OF TYPES 21, 22, 23, and 24:

A-Wrappers
B-Heavy leaf
C-Thin leaf
X-Lugs
S-Scrap
N-Nondescript

GROUPS OF TYPE 31:

A-Wrappers
B-Bright leaf, red leaf and tips
C-Lugs and cutters
X-Trash and flyings
S-Scrap
N-Nondescript

GROUPS OF TYPE 32:

B-Heavy leaf or dull crop
C-Thin leaf or bright crop
X-Seconds and ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 35, 36, and 37:

A-Wrappers
B-Heavy leaf
C-Thin leaf
X-Lugs
S-Scrap
N-Nondescript

GROUPS OF TYPE 41:

B-Binders or tops
C-Fillers (farm wrappers)
X-Stemming grades
Y-Farm fillers or ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 42, 43, and 44:

C-Fillers (farm wrappers)
X-Stemming grades
Y-Farm fillers or ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPE 46:

C-Superior
X-Inferior
Y-Defectuoso
S-Scrap (Picadura)
N-Nondescript

GROUPS OF TYPES 51, 52, and 53:

A-Wrappers
B-Binders, seconds and brokes
C-Fillers and short darks
X-Stemming grades
Y-Sand-leaf fillers or ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 54 and 55:

B-Binders
C-Fillers
X-Stemming grades
Y-Sand-leaf fillers or bottom leaves
S-Scrap
N-Nondescript

GROUPS OF TYPE 56:

B-Binders
C-Fillers
X-Stemming grades
Y-Ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 61 and 62:

A-Wrappers
B-Stout wrappers and binders
C-Fillers or tips
X-Filler brokes
S-Scrap
N-Nondescript

GROUPS OF TYPES 81, 82, and 83:

A-Wrappers
C-Fillers
S-Scrap

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS

Leaf Holdings Show Slight Increase Over Last January 1

Stocks of all types ^{1/} of leaf tobacco owned by dealers and manufacturers in the United States and Puerto Rico totaled 2,635,175,000 pounds on January 1, 1945. ^{2/} This is 29,814,000 pounds, or about 1 percent higher than stocks reported on the same date last year, when the 2,605,361,000 pounds in dealers' and manufacturers' hands represented the lowest January 1 holdings since 1939. Stocks of cigarette leaf tobacco showed a 2 percent increase over holdings of a year ago, but the totals of dark types and cigar-leaf stocks were lower than last January 1 by 2 and 3 percent respectively.

The 1944 crop was estimated, as of December 1, at 1,835.4 million pounds, and by the end of the year, over 1,250 million pounds had been sold, of which nearly 750 million entered stocks during the October - December quarter.

Stocks in the hands of dealers were reported as 279,004,000 pounds on January 1, 1945, about 10.6 percent of the total stocks reported for the quarter. This tobacco may include some which is earmarked for sale to domestic manufacturers or for export. Manufacturers' stocks were reported as 2,356,171,000 pounds - 89.4 percent of the total. Included in this latter amount is tobacco held under dealer registries of manufacturers and tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. Also included in this category are stocks purchased under agreement with the Commodity Credit Corporation which are earmarked for export and not actually available to domestic manufacturers. On January 1, 1945, CCC stocks were reported as about 287 million pounds, of which 284 million were flue-cured.

^{1/} Figures quoted for type totals in this summary are the sums of unstemmed and stemmed leaf, as reported. Tables in the body of the report show stocks in detail, subdivided according to recognized groupings; stocks on a farm-sales-weight basis; and stocks owned by dealers and manufacturers, separately.

^{2/} The general instructions for filing the tobacco stocks reports, required of dealers and manufacturers by the War Food Administration, specify that the report shall be made as of the opening of business on the first day of each quarter.

Flue-cured Stocks up from Last Year;
Burley and Maryland down

Stocks of flue-cured tobacco on January 1, 1945, were about 97 million pounds higher than a year ago, when holdings were at the lowest point since 1939. Dealers and manufacturers reported 1,463,302,000 pounds of flue-cured on hand on January 1, 1945, as compared with holdings of 1,366,746,000 pounds last year on the same date. Additions to stocks through sales during the quarter totaled around 553 million pounds, and represented about one-half of the estimated 1944 crop, and January 1 reported holdings showed an increase over the previous quarter of 284 million pounds. Type 11 stocks were reported as 507,399,000 pounds on January 1, 1945; Type 12, as 530,882,000 pounds; Type 13, as 303,041,000 pounds; and Type 14, as 121,980,000 pounds.

Burley stocks were reported on January 1, 1945, as 590,319,000 pounds, about 42 million pounds lower than the 632,219,000 pounds reported a year ago, and the lowest January 1 stocks since 1938. From the opening of the season early in December to the closing for the holidays, sales of Burley totaled 160 million pounds, or approximately one-third of the estimated crop. Stocks showed an increase of nearly 31 million pounds over October 1, 1944, reported holdings.

Maryland stocks were about 4-1/2 million pounds lower than on last January 1, and the lowest reported since 1933 on this same date. Dealers and manufacturers reported on hand on January 1, 1945, a total of 34,012,000 pounds, as compared with 38,587,000 pounds on January 1 a year ago. Only a small quantity of this type entered stocks through sales (355,000 pounds), as the auction floors had closed on August 31 in the preceding quarter. Maryland stocks, therefore, show a decrease of about 7 million pounds from October 1 holdings. Disappearance of Maryland leaf for the calendar year 1944 (1943 crop) is calculated at 27 million pounds, as compared with 32 million in the preceding year (table 3).

Stocks of foreign-grown cigarette and smoking tobacco (Turkish and other), Type 90, show a decrease from last January 1 of about 6 million pounds. With the one exception of January 1, 1937, stocks of 55,551,000 pounds reported on January 1, 1945, are the lowest since separate data on this type were reported beginning in 1930.

Fire-cured Holdings Reported Lower
Than January 1 a Year Ago; Dark Air-cured Higher

Fire-cured stocks on hand on January 1, 1945, totaled 153,995,000 pounds, about 5 million pounds below last year's reported figure of 159,071,000 pounds. Sales of Type 21, which opened on December 11, totaled a little over 2 million pounds, and represented the only fire-cured leaf entering stocks during the quarterly period. Markets for Types 22 and 23 did not open until January 1945. January 1, 1945, stocks of Type 21 were reported as 23,131,000 pounds; Type 22, as 95,958,000 pounds; Type 23, as 34,788,000 pounds; and Type 24, as 118,000 pounds.

Dark air-cured stocks totaled 53,838,000 pounds, as compared with 52,711,000 pounds on the same date last year - an increase of about a million pounds. Markets in all dark air-cured types opened the first part of December and sold during the month over 12 million pounds of leaf, which represented about 30 percent of the crop. Of the total reported on January 1, 1945, 27,581,000 pounds were One Sucker, Type 35; 23,435,000 pounds, Green River, Type 36; and 2,822,000 pounds Virginia Sun-cured, Type 37.

Stocks of Most Cigar-leaf Types
Lower Than Last Year

Stocks of all types of domestic cigar-leaf tobacco were nearly 257 million pounds on January 1, 1945, about 12 million pounds lower than stocks of 269 million reported on January 1, 1944. Of the separate classes, cigar-filler and cigar-binder were lower than last year, but the cigar-wrapper class showed an increase over last January 1. Cigar-filler stocks were reported as 140,281,000 pounds on January 1, 1945, of which 79,613,000 pounds were Pennsylvania Seedleaf, Type 41; 15,602,000 pounds, Gebhardt, Type 42; 9,816,000 pounds, Zimmer, Type 43; 4,183,000 pounds, Dutch, Type 44; 21,787,000 pounds, Puerto Rican, Type 46, in Continental United States, and 9,280,000 pounds in Puerto Rico. With the exception of Puerto Rican stocks, those of all other types of cigar-filler are lower than a year ago, when dealers and manufacturers reported total holdings of cigar-filler tobacco at 144,409,000 pounds. Disappearance of Puerto Rican leaf for the calendar year 1944 (1943 crop) is calculated at 19.5 million pounds, as compared with 21.1 million in the preceding year (table 3).

Cigar-binder stocks were reported as 98,488,000 pounds on January 1, 1945, compared with 107,904,000 pounds on January 1, 1944 - a decrease of nearly 9-1/2 million pounds. Of the total reported, 21,701,000 pounds were Type 51, Connecticut Broadleaf; 25,127,000 pounds, Type 52, Connecticut Havana Seed; 2,504,000 pounds, Type 53, New York and Pennsylvania Havana Seed; 24,993,000 pounds, Type 54, Southern Wisconsin; 23,687,000 pounds, Type 55, Northern Wisconsin; and 476,000 pounds, Type 56, Georgia and Florida sun-grown. Most of Type 52 is usually delivered to warehouses during this quarterly period, and some deliveries were probably made also in Types 51 and 53.

Cigar-wrapper stocks were reported on January 1 as 18,151,000 pounds, compared with 16,820,000 pounds on January 1 a year ago - an increase of about 1-1/2 million pounds. Type 61 stocks showed an increase over October 1 stocks, as most of the tobacco of this type is delivered to warehouses during the October - December quarter. Deliveries of Type 62, Georgia and Florida wrapper, are made in the third quarter. January 1 stocks of Type 61 were 12,350,000 pounds, and Type 62, 5,801,000 pounds.

On January 1, 1945, stocks of foreign-grown cigar-leaf totaled 25,988,000 pounds, which represented the largest stocks of this type held on any reporting date since separate records were started in 1930. Cuba (Havana), Type 81, stocks were reported as 22,013,000 pounds, an increase of about 5 million pounds over holdings on October 1, 1944. Sumatra and Java, Type 82, stocks were reported as 3,368,000 pounds on January 1, 1945, Philippine Islands (Manila) stocks each quarter since January 1, 1941, have been lower than each preceding quarter, and had decreased from a near record-high level of 6,197,000 pounds on January 1, 1941, to 109,000 pounds on January 1, 1945. Other Foreign-grown Cigar-leaf stocks were reported as 498,000 pounds on January 1, 1945.

Miscellaneous Domestic stocks on January 1, 1945, were reported as 1,250,000 pounds, of which 100,000 pounds were Eastern Ohio, Type 71; 548,000 pounds, Perique, Type 72; 602,000 pounds, Other Miscellaneous Domestic, Type 73.

1/ Subject to revision.

2/ See supplementary Burley report on page 13.

3/ Although Type 73, is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

4/ Does not include stocks owned by Netherlands Indies Produce Corporation held in the free trade zone.

* Revisions in October 1 report.

1943.....	28.1	36.0	64.1	4/19.5	37.5
1944.....	4/30.0	2/44.6	4/74.6		

1/ Only these two types are shown this quarter, as they are the only types in which January 1 stocks are used in determining disappearance. Stocks are as of January 1 of the year following production; and disappearance is for the year beginning January 1 of the year following production. Disappearance for these types is calculated as follows: Production for any given year, for example, 1943, plus stocks on January 1, 1944, equals total available supply for the year beginning January 1, 1944. This supply figure minus stocks on hand on January 1 the following year (January 1, 1945) equals the disappearance for the year, or from January 1, 1944, to December 31, 1944.

2/ Subject to revision.

3/ December 1 estimate.

4/ Preliminary.

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of The Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis. Figures are as reported to date; no revisions of this table will be made.

2/ The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown in the manufacturers' column also include stocks purchased under a agreement with the Commodity Credit Corporation which are earmarked for export and are not actually available to manufacturers; these stocks are reported as approximately 287 million pounds, 284 million of which consist of flue-cured. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. The table should therefore be considered as representing only the approximate quantities owned respectively by dealers and manufacturers.

3/ Includes stocks on the Island of Puerto Rico.

4/ For explanation of stocks included in this classification see footnote 3 on page 12.

5/ Does not include stocks owned by Netherlands Indies Produce Corporation held in the free trade zone.

Table 5 .- Conversion factors for adjusting for losses in weight incident to stemming, handling, sweating, and drying, all types of tobacco

Type	U.S. type number	Factors to multiply by to convert weights	
		Stemmed stocks to unstemmed equivalent	Unstemmed stocks to farm-sales weight
Flue-cured	11-14	1.282	1.12
Virginia fire-cured	21	1.299	1.18
Eastern District fire-cured	22	1.316	1.04
Western District fire-cured	23	1.316	1.04
Henderson Stemming	24	1.316	1.125
Burley	31	1.351	<u>1/</u> 1.11
Southern Maryland	32	1.351	1.02
One Sucker	35	1.429	1.09
Green River	36	1.316	1.13
Virginia sun-cured	37	1.316	1.13
Pennsylvania Seedleaf	41	1.387	1.11
Gebhardt	42	1.370	1.12
Zimmer	43	1.401	1.13
Dutch	44	1.418	1.115
Puerto Rican	46	1.275	1.17
Connecticut Broadleaf	51	1.292	1.07
Connecticut Havana Seed	52	1.299	1.07
New York and Pennsylvania Havana Seed	53	1.364	1.135
Southern Wisconsin	54	1.300	1.06
Northern Wisconsin	55	1.333	1.085
Georgia and Florida sun-grown	56	1.275	1.245
Connecticut shade-grown	61	1.224	1.135
Georgia and Florida shade-grown	62	1.205	1.16
Miscellaneous Domestic	71-73	<u>2/</u> 1.333	<u>2/</u> 1.09
Foreign-grown cigar-leaf	81-84	<u>2/</u> 1.205	<u>3/</u>
Foreign-grown cigarette and smoking tobacco	90	<u>2/</u> 1.205	<u>3/</u>

1/ Beginning April 1940, factor changed from 1.12 to 1.11 to take into account lower redrying losses.

2/ Tentative factor.

3/ Factor has not been established.
